David Sunding is the Thomas J. Graff Professor of Natural Resource Economics and Policy at UC Berkeley, where he also directs the Berkeley Water Center. He has written extensively in the fields of environmental economics, natural resource economics, water resources, land use, wetlands, water quality and endangered species. Prof. Sunding teaches courses in natural resource economics, environmental policy, and law and economics.

Prof. Sunding is a founder and director of Berkeley Economic Consulting, Inc., an independent economic research firm. He has served as an expert witness in a variety of matters, mostly concerning environmental and natural resource issues. He has also advised on transactions in the energy and utility sectors, and has been an advisor to several private equity firms.

Prof. Sunding earned his Ph.D. from UC Berkeley in 1989. Prior to his current position at Berkeley, he served as a senior economist at President Clinton’s Council of Economic Advisers. He is a member of the American Economic Association, the Association of Environmental and Resource Economists, the Econometric Society, and the American Law and Economics Association.
